### CHAMPIONSHIP OF THE THAMES.

CHAMBERS AND EVANS.—There is nothing new to communicate as regards this important match. Regular training is the order of the day with both, and there is little doubt but that they will show in first-class form. The sixth deposit of £250 has this week been made at Mr. Wall's, The Maltster, Bridge-street, Greenwich.

From our Newcastle Correspondent.

What little there is, is all in favour of the Champion, although the investments are only of the scantiest description; it is, however, possible there will, on the evening of May 1st, be a pleasant surprise in the shape of a very skilful sportsperson, Chambers, who is being trained by the celebrated Harry Clasper, is minding his business admirably. What the pleasure of witnessing him afloat on the Tyne, and what a treat it would be to our readers he performed his duties to a nicely. We trust he will furnish the public with every necessary information.

### OXFORD AND CAMBRIDGE BOAT RACE.

ALTHOUGH the Oxford crew have hitherto been very highly regarded by us, we learn from our reporter, who took a run down the river, that the state of affairs on Tuesday last, has not yet arrived at that point of perfection demanded for a University encounter, and that in accordance with the wishes of their mentor, another important alteration has been made, Mr. Parades of Trinity College, having displaced Mr. Wardell, who had rowed for the Blue. The new boat, built by Messrs. J. and S. Salter, was launched on the 18th, and the crew took a sweat over the long course for the diamond, which is now gratifyingly well prepared for the race. The vexatious question of the "dinner" still remains to be answered, Mr. J. W. Cliffton, who has been named to fix the date, is the special. We understand, that besides the eight-oar race, there will be a single scull, billiard and racket matches played between the champions of the two universities during the week of the boat race. The latest corrected weights are as follows:—

THOMAS COOPER.—A contemporary having, in the kindest manner, killed young Thomas Cooper by a blow on the head, begs to state that he has not the remotest knowledge of having come to so painful an end, and further, that being in possession of all his faculties, and not having lost his appetite or in any other manner undergone any material change, he ventures to think that our contemporary is probably in the wrong.

### BILLIARDS.

### OUR NEWCASTLE REPORTS.

(To the Editor of the "Illustrated Sporting News.")

Sir.—It is not my intention to compliment you for the admirable and important paper you publish in your "News," is conducted, without giving first giving the name of every editor, and I do not speak from my own observation exclusively, that your upholders are or a leader, and to be, a pattern to both metropolitan and provincial sporting journals. It is a practice I believe generally adopted amongst correspondents in distant towns, to communicate reports to one another. This is a practice I find, from casual examinations that this misleads not trustworthy; at any rate it is very great extenuation in your contemporaries, who even profess to publish nothing but exclusive matter. Such a course as this, Mr. Editor, I think merits its own censure. As far as I am concerned, I am glad, however, to find that your paper, at least so far as I know, does not recognise any such pretension. I know from personal observation, that your reports of races which take place in this town are both accurate and reliable, and may be relied upon as local reports. This fact, I am sure, reflects great credit on your judgment and knowledge. As a respondent, being a staunch admirer of genuine sporting I feel compelled to make the foregoing remarks, and in conclusion I may state that, as far as I am connected, your paper meets with every encouragement.

I am, Sir, yours truly,

B. BAILLIE.

### BOWLING.

THE Town Moor, Newcastle, presented a most animated appearance on Saturday last, consequence of a great match which took place between the two leading bowlers on the West Coast, and Robert Smith, of Warrington, with 220 bowls each; distance from the mark 20 yards, weight 1½ lbs. for £20, and the Championship of the Middle Weights. Saint is one of the most scientific throwers ever produced in England. He has contested in innumerable contests, and cracked the cracks of the country, and has rarely proved his conqueror, in fact his honourable opponents have always been compelled to compete either with the light or heavy weight. We find amongst his long list of engagements that out of forty-five trials he won twenty-nine, lost twelve, played four drawn matches, and conceded in four handicap games, which he has won. In a recent match he won with the following men: it will be seen he contended against some men several times, but we give them as they were booked, viz. Wardle, with twenty-two, and Saint, with 20 each; Mr. Reay, 30 each; Mr. Reay, 28 each; F. Wood, 26, and Saint 30; F. Wood, 20, and Saint 34; F. Wood, 20 each; Harry Brown, 48, Saint 40; H. ## THE TURF.

### NORTHAMPTON ANTICIPATIONS.

We are to have a great meeting at Northampton on Tuesday and Wednesday next, and the ring, for the first time this season, will be patronised by nearly all the leading influential Turf supporters. As the Lords Spencer and Rothschild, and a large number of visitors from Athlone and Whitchurch, the fashionably attended in the Grand Stand, will be present. Indeed, nothing but the weather will be wanting to ensure a brilliant gathering. A vast number of horses are under orders, and the running during the two afternoons will greatly affect the great handicap events at Epsom, Chester, Newmarket, and York.

Within the last few days the betting upon the Great Northamptonshire Stakes has been very active, and there is every prospect of a large number of starters, including the Caribou, Knutsford, Mandarin, Grasmere, Gorse, Beaumont, Haslegrave, and the like. The Lady Evelyn Colt, African, Berkeley, Frooder, Canzonette, Voluptas, Poco, and the like, will be in the ring, and Stampede and Cragga Patrick have broken down, although reported to be a great horse, and if he really has retained his Great York performance, he will be hard to beat. There is also a mystery hanging over him, that, who can tell, may not have been removed. He must be held harmless. Caribou has not honoured a race, but Kantsford, who has made a name, and in pinning over Tom Cliff's horse, which comprised his whole career, must at arms can never stay the distance. Grismore should run forward, and George, the King of the Hill, last year; but she is as hot as ever. The Lady Evelyn colt, Berkeley, and Voluptas, are very favourably weighted. The latter has barely got over his last year's trials, and is a good thing yet. Canzonette, the strength of the Woolley's "Force," this spring, was beaten in last year's race at Warwick, Wednesbury, and the like, and makes a mistake with Tolpuddle and Marquis to give them line. Our impression is that

### CANZONEETTE AND KNUTSFORD

will be the first couplet past the post.

For the Earl we should prefer MILTONSHIRE, and the best of Lord Stamford's must be well worth trying for the Whitchurch Stake. MANICO can give an excellent account of himself, and should be a fine horse, and, as we see, will be a good deal to do in the shape of a staking horse. Lord Stamford's horses are all well in the Spencer Plate, and when all are present the staking (heaps) will be well. Gamma must be a good horse, and it will be a fine trial for Whitchurch, Blandford, and the like, to present his lordship's colours. The two year old girls are too young to be considered with at present, but it is clear that we have seen VACUA she ought to be now, pulling off the Althrop Park Stake. For the St. Liz Handicap, we like COVINGTON, and AGUS, and AGUS, and AGUS, is supposed to be a good horse. It is a big stake, and the money available will bring him in for a short race he must be followed. Man-A-Cone will be more at home in the St. Liz Handicap than in the Great Northamptonshire.

## OUR NEW YORK LETTER.

New York, March 2, 1863.

To the Editor of "The Illustrated Sporting News."

Dear Sir.—I have threatened to write you half a dozen times before this, but have been prevented from doing so by the fact that the ice is broken, you can look for a New York letter whenever anything transpires here of sufficient interest to warrant it.

A few days ago a general inquiry was made in London that Joe Coburn will probably be the boxer Unknown. Now, as far as concerns my budget with a few items about the aforesaid Joe Coburn. At present Mr. Coburn is staying at one of the royal hotels, the Royal Hotel or the Old Swan, Carlton Place, &c. They gave a sparing exhibition, in Philadelphia recently, and were to repeat the same in Baltimore, only the "City Fathers," or aldermen, wouldn't grant them permission. From Baltimore we are told they are to go to Washington, and will probably be more successful there. Your portrait of Mr. Coburn, in the News of Feb. 7, is a most excellent likeness, and will have surprised many persons who will see on account of his being a very tall man. As the Dandy Horrigan said, "When you see Coburn's looks he'll think him stily enough for the Lord Mayor." Most of our fighting men are now in New York, and John C. Heenan, and others, are in a hall or drawing-room as in a "tavern." Their associations make them so, and John C. Heenan is a very fair representative of our first-class boxers. But I am going to tell all about him in another letter.

Now, I have only to state that he is already matched with a man from St. Louis, named Tom McCool; for 1,000 dols. a side, and on the 1st of March (Sunday) there is to be 250 dols. a side put up. Ed. W. is to be the referee. We have a good place in Jersey, noted for its prize fights, and approached by a ferry from this city. The proprietor of the hotel once fought Harry Grubbin, an old opponent of Jim Clarke's, of Liverpool, at a price of 1,000 dols. a side, and the referee was the author of the New York Clipper. Frank Queen, Esq., has been appointed stakeholder, and the battle, which is considered for the Championship of the world, is to come off May 1. It is generally understood that Joe Coburn may be the boxer Unknown for McCool, while Coburn will assume the greater portion of his amount from his own pocket, assisted by Tom McCoy, and Peter Smith, the champion Ten Pin player. McCool is the biggest man, and has fought in America longer than any deceased. What Coburn lacks in size he makes up in science: he is a beautiful sparer, and looked upon as the very best boxer in America, and his most brilliant gloveman, and with William Clarke (the old man of Bob Tamm's), on the 1st of January, for 200 dols. a side, when your correspondent officiated as referee. It is not certain, however, whether the match will go on, as the referee is at present only 25 dols. a side is agreed. We hope it may.

Owing to the shaky condition of our currency, quite a number of boxers have left for California, where gold is still the circulating medium, and paper is postage stamp, and coin! That is precisely what we want to do in several months, and now we are not much better off, from the scarcity of pantries. A pack of Welsh speculators go to work and buy up all the hard coin, and then the price they set is high. For a gold dollar, we have to pay 50 dols. in common paper, and for a dollar's worth of pennies 20 dols. cents. Our money at this writing consists of 5, 10, 25, and 50 cent pieces of paper, resembling the English Pennies. The paper is the only peculiarity of this money being that all other kinds of bills and Treasury notes, or "green-backs," and fractions of a dollar, are refused by Post-office departments. Never was money considered so worthless, and consequently, all kinds of business is flourishing amazingly: people are up to the mark, and fear of a grand smash-up, so they spend it as fast as they get it. If I wished to revisit England it would immediately double the price it did two years ago, and I would be compelled to bring a great sum of money with me. I have to get every paper dollar converted into gold at a loss of 75 cents each, and even more remarkable, Canada is flooded with specie: there is a drug in the market, and for a paper dollar there is a premium of eight or ten cents, or half a dollar.

How long California may hold out before it becomes as bad as New York, it is hard to tell. What took the sporting men from our city to the gold diggings is a great pity, fight to come on March 10, between Johnny Lazarus, the champion of London from his being present at the Heenan and Sayers' fight) and Pete Davis, the champion of Lazarus, the conqueror of Denny Horrigan; Jack Bath, an old opponent of poor Mike Hogan; Bill Clarke, very well known in England; and several others whose names I have forgotten. The fight is to be held at Lazarus' place. Speculation is very busy as to who'll turn out the best man. Young Lazarus is a fine-looking fellow, and will be remembered by those who witnessed his fight with the conqueror of Horrigan. He is a good boxer, but many doubt his gameness, because he is, as you just mentioned, a beginner, although he has the credit of being a perfect glutton at the table, and is said to be a good drinker. You will see what we shall see, as there is a continuous line of telegrams wires between here and San Francisco. I will let you know the result at the earliest moment.

Our Sunday and daily newspapers, who are continually abusing paganism, except when they can make capital out of it, are all agog with excitement at

the prospect of Heenan again appearing in the magic circle, according to the news just received from England. I have written to you to say that Unknown will turn out to be that wants to fight our champion, but my private opinion lies on Tom King as the man, if it ever comes to anything. Heenan is a fine-looking man, and a splendid battler, and I would give the winner till it was over. Mace is to come out and fight too, and will be present. California is about 6 months' journey by steamer to New York. Speculation is very busy as to who'll turn out the best man. The last heard of him is that he is a good boxer, and will be a fine champion if he can gain his sparring rights. He is a good boxer, and should be a good match by any possibility fall through, it is very likely he will take a trip across the Atlantic.

In answer to your polite query, I have been unable to find out anything further about Aaron Jones, whether dead or alive. The last heard of him was acting Lieutenant in a Louisiana Regiment, under Jeff. Davis' banner, and, consequently, hasn't much sympathy with the North. It is generally believed that Aaron was impressed in the rebel service.

For the present, adieu,

The Earl of Derby is better. He was sufficiently recovered on Monday to leave his bed-room, and there is every prospect of his early convalescence.

## HACKNEY WICK.

H. ANDREWS AND C. PAYNE.—In the two miles race for £10, which started at the corner of the Hackney Road, and ended at these grounds between Hackney Wick and Bow, and Charles Payne, of Tonbridge Wells, £10 a side has already been made good.

The remaining £5 a side will have to be placed in the hands of the Hackney Wick and Bow Club on Friday next. The Hackney receiver demands £10 a side.

LAW AND BANBURY.—There is now £15 a side down for the approaching struggle between these celebrated clippers, who have now made their appearance on the 30th for the Champion Cup. Another free, a side match, is planned in Finsbury next week. Both men are in active training, and the major excites a good deal of interest.

BALFOUR AND DURANT.—The whole of the money—£15 a side—between these well-known runners has been made good, and the man runs five miles on Monday next at these grounds for that sum. Balfour has an advantageous start of 500 yds. Both men are in excellent condition, and a good race is anticipated.

LAW AND MITCHELL.—There is now £15 a side down for the test their pedestrian powers in a spin of eight miles, on the 30th of the coming month, at this enclosure: £5 a side is already down, and a further instalment is due on Friday next.

## WEST LONDON CRICKET GROUNDS, BROMPTON.

THE GREAT WALKING MATCH BETWEEN SPOONER AND MILES.—Miles has been held duly appointed for the important struggle between Walker and Spooner, of Turnham Green and James Miles of Brixton, an immense assemblage of spectators hurried to Mr. Roberts' West-end inclosure. In view of the great number of men having to receive one mile and a half start for 250 a side, the referee, who has the men have attained both in town and province renders it totally unnecessary to recapitulate their performances in public matches as they are divided as regards the walking, and a treat of no ordinary kind was given to the spectators in public circles.

Miles had been making his preparations at Garratt-lane, W. C., while the veteran had again resorted to his unflinching art of walking. John Miles, the gentleman from Brixton, who were in capital condition, was pronounced as the favourite at 5 to 4. All the preparatory matters being arranged, the men came into the mark, Miles being the first to put himself in "form," and start in with a walk of 100 yards, when the referee dashed off to make the marks of the minute and a half start allowed by his opponent. Jen, on dashling off, was seen to be in full flight, having made use of his time that when the race began he had nearly covered a lap, having walked 400 paces out of 800. Jen did not receive the "offices" to go in pursuit of his opponent, and was to be seen in his style. Spooner, however, made no "impression" on his master, and the distance between, throughout the 1st, 2nd, 3rd, 4th, 5th, and 6th miles. On the contrary, Miles gained the odd forty yards on that Jen had one lap, or a quarter of a mile, in advance. The first seven miles were walked by Miles in 8min 8sec. Spooner's time for the same distance being 6min 58sec. so that by this it will be seen that Miles had just upon a minute on his man when the start. Spooner, however, it will be seen, had a man, and holding himself in reserve, Smith every now and then giving the signs of "caution," there is plenty of time yet; Bill, the match is yet early, and the distance between, throughout the 1st, 2nd, 3rd, 4th, 5th, and 6th miles. Fawdon, to run 130 yds, for £40. This event, since the match was ratified, has caused much interest and speculation, the betting being in favour of Campbell throughout. The distance is to be run in three-quarters of an hour. The combat took place at 5:45 p.m. on Friday evening, just after the advertised time. The contestants were in first-class condition, Campbell having for his mentor the celebrated James Porcy, while J. Dance performed the required task. The distance was 130 yds, of a very uneven nature, and it was not until the seventeenth attempt that the interval between each frequently being about two minutes—that they bounded off, Campbell having about 12 yds the better of it. There was nothing very exciting in the race, which was really a dead heat; and, though Campbell had the best of it, he won with great difficulty, shot right ahead; at 100 yds he led by fully 9 ft, and, consequently, reached the goal a comparatively easy winner by little more than 5 yds. The time occupied in performing the distance was about 30 sec. according to his own time, which is tolerably good. Mr. Campbell Porcy was here. This was the first meeting of the year, and a 200 yds spin between James Dalton, of Hill Quay, and Robert Burns, of Felling Shore, for £10 a side. It was quite dull when the race was decided. The combatants were in first-class condition, and the race was decided in 100 yds, with a 100 yds spin. Campbell won with a very narrow margin, and was reckoned the most brilliant runner in the country.

confidence. They have to be on the mark between six and half past six in the evening, thus giving the lovers of "feet of foot" ample opportunity of witnessing the trials. The trials, from arrangements made by the management, spectators will be enabled to witness the struggle made by the contestants—but not the referee and umpires being admitted into the enclosure. This matches open the pedestrian campaign of the season, and we hope that it will pass of satisfactorily, and be the forerunner of a successful exciting season at these grounds.

SATURDAY, MARCH 14TH.—HANCOCK AND BEDDOW.—This was the day fixed by James Hancock, of Salford, and George Beddow, of London, to have their spin of 180 yds. for the 100 yds. novice handicap, so far as the weather would concern, the selection was good, the weather being fine. The first race was for £10; still the attendance was meagre indeed, notwithstanding the acknowledged celebrity of the men, they having been so long performers in public on the pedestals of fame. The second race was for £10, and the third for £5, and the main purpose that further research to their qualifications of foot is needed. Mr. George Hardy, of the Rising Sun, Shudehill, was stockholder and referee. The racing opened with a 400 yards race to 3 to 1 on Hancock, but a small number of men had entered, and all were beaten. All the leading men of the meet came to their marks, when off they went. Hancock just showing his front for about 50 yds., when Beddow gave him the go-by, and ran in an easy winning style.

SHERIDAN AND BARRISTER.—No Match.—The match between those men is off, Beddow having forfeited the money down.

#### LEEDS.

SIMPSON AND HANCOCK.—On Saturday John Nelson and Thomas Hancock, of Bradford, to run 100 yds. for £25 a side, Nelson receiving an even start, Nelson keeping in front, and winning by rather easily, he met no one to contend for starting. They ran at the Victoria Race Grounds, where the competition was good, and England Half-mile Handicap was run on the same day, for £10 and other prizes. The first heats were run on the 10th instant, when forty-four put in an appearance, and were divided into seven lots. The following men, who won their heats on Tuesday, made up the field on Saturday: S. Midgley, 35 yds start; T. Hancock, 29; W. Nayler, 10; J. G. Bragg, 10; and G. Marshall, 103. Starting was to 1 against any bar one, and 2 to 1 on the 10th instant. On the straight course, when off they went, Hancock just showing his front for about 50 yds., when Beddow gave him the go-by, and ran in an easy winning style.

#### SKEFFIELD.

#### WORTHING.

CUTLER AND GRANTON.—A capital day's sport came off in these delightful enclosures on Tuesday, and drew together a vast concourse of both sexes. The opening race was of 150 yds. run after the fashion of the Royal Yacht's way. Watson. A match of 600 yds. came next, and was decided in favour of Mr. Watson. A race was then open to all comers, and was claimed by A. Gravatt. A wheel race followed, which was decided by Mr. Watson. The next race was over hurdles, 250 yds., and this was decided by Mr. Sir John of Salter's Farm, Lancing. A wheel barrow contest of 150 yds. concluded the pedestrianism.

#### STONEFIELD GROUNDS, LAGOW.

GREAT HORSES RACE BETWEEN H. ANDREWS OF LAGOW AND W. H. PARKER OF GLASGOW.—This long-looked-of event in ped circles, in which William Parker of Liverpool, the first start, was finally decided on Saturday afternoon last at the above grounds, was a success. The meet was very numerous, there being not less than 800 persons present to witness the trials, and the horses were not less than 200 yds. apart, and this was decided in favour of H. Andrews, who was half past five before they had the man.

It is superfluous for us to add that Park was in anything like condition when he won, and the want of speed telling upon him every lap. After the race, Mr. Andrews, of Lagow, and Mr. H. Andrews, ten miles, with the same start, for 250 or 300 yds. a side, but we did not see them.
